

Jasmine Wills, with the terrific smile, was nervous speaking at the JCEP Employers Appreciation Breakfast. She shared her struggles and frustration at looking for employment. She explained how JCEP was instrumental in the job search, by improving her resume and providing encouragement. Although Jasmine believes she would have found employment, with the support of the JCEP team, she felt she could go after her dream.

Ultimately, she was able to obtain employment through the Dallas Sheriff's Department as a Detention Service Officer and she loves her job.

Jasmine shared that she heard about JCEP during Drill weekend. She had never been employed and was anxious about a company hiring her with no experience. But her heart was to work in the Criminal Justice system.

When asked what about the Job Connection Education Program made the biggest impression on her, Jasmine stated, "All the help they provided. JCEP will actually help you, not just say they will."

Jasmine's final statement was a repetition of what the JCEP team has heard many times before, "I am real thankful that I heard about the program early."
